HW2 README (colab version)

- Notifications:
    - colab version of hw2 baseline
- Files/
    - net01.ipynb
    - net02. ipynb
    - net03.ipynb
    - hw2_prediction.ipynb

- Training:

train 3 models, structure & hyperparameters slightly modified

run:

1. net01.ipynb
    - you will get *model_01.ckpt* and *prediction_01.csv*
2. net02.ipynb
    - you will get *model_02.ckpt* and *prediction_02.csv*
3. net03.ipynb
    - you will get *model_03.ckpt* and *prediction_03.csv*

- Testing:

hw2_prediction.ipynb

for each model, inference and then do postprocess

ensemble 3 models (voting) and get *output.csv*

- Download trained checkpoints via the link below:
